PROFESSIONAL SUMMARY

Computer Engineering student with a solid background in software development, programming, networking, cloud technologies, and artificial intelligence. Hands-on experience working on web-based systems and educational platforms through team-based projects and competitions, with experience as a Team Leader and Project Manager. Strong problem-solving , analytical, teamwork, and communication skills. Seeking a Software Development/ AI Engineering internship to apply and further develop my technical and problem-solving skills while making meaningful contribution to the team and society.

EDUCATION

Mae Fah Luang University Aug 2023 - Present
Bachelor of Engineering (Computer Engineering)
Expected Graduation - 2028 | GPA: 3.98/4.00

PROJECTS & EXPERIENCE

Senior Project | E-Learning Platform 2026 - Present
Project Management & Developer

- Developing a Web-based e-learning platform designed to provide structured learning modules, quizzes, and mock tests for networking students.
- Designing and implementing features that simulate a real testing experience.
- Creating hands-on networking lab tutorial videos demonstrated by the team to support practical student learning.

Room Reservation System — Mobile Application Aug - Nov 2025
Team Leader / Project Manager & Developer

- Developed a Flutter mobile application for university room browsing, reservations, booking requests, and history management.
- Implemented separate interfaces and workflows for students, lecturers, and staff, including room management and reservation approval.
- Integrated REST API communication, authentication, JWT-based session handling, and secure local storage.

Asset Borrowing System

Jan - April 2025

Team Leader / Project Manager & Developer

- Developed a role-based web system for asset browsing, borrowing requests, approvals, returns, and history.
- Coordinated team development and contributed to frontend and backend implementation.

Hugmae Hackathon in honor of Queen Sirikit

2025 - 2026

- Proposed an AI-powered offline-first rural healthcare application to improve healthcare access in underserved communities.
- Selected as a **Top 21 National Finalist** and participated in a 3-day bootcamp and pitching session.
- Collaborated with mentors and presented the solution to representatives from multiple organizations.

International Exchange — Deep Learning & AI for Images | Indonesia

September 2026

- Participated in a one-week international academic and cultural exchange program in Indonesia as part of a Deep Learning and AI course.
- Collaborated with international students and faculty in an academic and cross-cultural environment.

TECHNICAL SKILLS

Programming : Python, Java, C#, JavaScript, HTML, CSS, Node.js, Flutter, Git, GitHub

Database: MySQL, phpMyAdmin

AI & Cloud: Artificial Intelligence, Machine Learning, Cloud Computing, AWS, Huawei Cloud, Virtualization

Networking: TCP/IP, IPv4/IPv6, Routing & Switching, Subnetting, WLAN, VLAN, OSPF, BGP

Operating Systems: Windows, Linux, Kali Linux, Ubuntu

Security: Network Security Fundamentals

CERTIFICATIONS & AWARDS

- HCIA Datacom — Huawei | 2026
- Huawei Cloud Developer HCCDA-Tech Essentials — Huawei | 2026
- Cloud Developer, Level 5 — TPQI | 2026
- Outstanding Student Award — Mae Fah Luang University 2024-2025
- Grand Prize — Huawei ICT Competition (Networking) National 2024-2025
- Third Prize — Huawei ICT Competition (Networking) Regional & Global | 2024-2025

LANGUAGES

- English — Professional Proficiency (CEFR C1)
- Burmese — Native
- Thai — Basic Proficiency
- Chinese — Basic Proficiency
